

Brought from the House of Burgesses by several members thereof the following Resolves, with several Resolves unanswered to which Remarks sent them from this Board viz

By the House of Burgesses October the 2^d 1696

The House understand by the messages传来 that his Excellency is not satisfied with our last Message under any apprehension that his Excellency lies under any accusation of receiving the Country's Money because some single Persons without reason and contrary to Truth, may let fall such imputations. We are very sorry his Excellency should say such words and therefore to clear ourselves and the whole Province from any just and honest publick charge declare without exception that at all times past we have found his Excellency free from the least Tendency that way. That he hath always treated us with Justice and Honour notwithstanding using so much busyness about our good and never either required or used any of the Country's money but on the contrary hath severall times lent us money of his own and received nothing but the principal again and the money that his Excellency has now received from us is no more than what honest and lawfull consideration out of and this we sincerely desire and desire it may be accepted of from us. Signed for Order W Bladen Ch Assembly

Answered to by his Excellency and his Majestys honourable Council Ben Denton Esq
His Excellency is further pleased to Represent that as he never called andsembly know when there was an absolute necessity for it for the Glory of God the King's Service and Good of the Country so neither has the Tobacco expected and allowed by those families been paid away or gone to the use of any persons besides the Inhabitants of the Country

The Resolves of the House of Burgesses read vizi

By the House of Burgesses October 2^d 1696

The House read last message and as to the first part thereof relating to the Ordinance for quieting the minds of the people we conceive that we have expressed ourselves to the same purpose though not in the same words and from which we cannot recede

As to the Rangers Resolved that they be allowed for their Tobacco wherewithal they purchase their Arms one penny of Pound but what to be paid left to his Excellency & Coloured

As to the Fines we are not willing to have more than what are already and so have resolved and cannot recede

As to Mr Brays Alms we can say no more than what we have said

As to Sir Thomas Lawrence we can say no more at present than what we have said when the Good Effects of his Honour's Negotiation appears we doubt not but that Assembly will make their Acknowledgments for the same as shall become them

As to the Ships we have not further to say herein

We cannot but with great grief of heart say that if his Majestys Subjects here have not a reasonable time allowed them to produce their Certificate or other reasonable Proof for the discharge it may be the utter ruin of many good Families and we humbly beg leave to Remark that if once Judgment is Obtained there will be no time to the defendant to produce his Certificate or other legal Proof for it comes to law after Judgment but if reasonable time were allowed Certificate might be produced and the guilty distinguished from the Guilty less but if time be not allowed they must all be involved in one common Ruin without distinction of fact from true traders

Signed for Order W Bladen Ch Assembly

Brought from the House of Burgesses by Colt Herman the following Report about the Roof of the Slave House vizi

By the House of Burgesses October 2^d 1696

Ordered that Major John Hammond Captain Richard Hill Mr Thomas Dixon and Captain Edward Blay go and inspect in the Roof of the new State House and make their Report to this House as to the Goodness and sufficiency thereof the said Gentlemen go out and return to the House and report that they find the same in all respects good and sufficient

Signed for Order W Bladen Ch Assembly

Ordered that two of the Gentlemen of his Majestys honourable Council go and inspect the said Roof and make their Report thereon and that afterwards they go down to the House to acquaint them that his Excellency requires their attendance at this Board to see the laws purposed &c And accordingly went the honble Colt Hutchins and Colt Brown who returne us to say that they have viewed the Roof of the State House & find it to be very substantial
